Volunteers had an opportunity to learn about the 2019 Programming Series, and the vision for a future permanent space.

## Asphalt basketball court

---

First photo taken in March shows extensive vegetation infringing on asphalt play surface.

Volunteers used flat shovels to scrape layer of turf and vegetative growth off perimeter of court surface.

Scout parents used weed whackers to trim grass growing in the cracks.

## Basketball court area expanded

Vegetation between court and tree line was cut back considerably.

30 bags of vegetative debris were filled; half were placed in the onsite dumpster, half picked up by Park Operations Area 2 staff.

Volunteers kept  
up the pace all  
morning

# Visit from Supervisor Penny Gross, Mason District

Crosby Lester, Eagle Scout  
Candidate, describes his  
project and expected  
benefits to Supervisor  
Gross

# Terraced garden alongside patio

Dominant plant was  
tiger lily

All other weeds and  
vines pulled out

## Patio & Terraced Garden

Volunteers used clippers to trim back vegetation and remove invasive species, and break down the debris for disposal.

Volunteers recovered an old planting bed by cleaning out trash, weeds, decomposed leaves, and replacing with fresh mulch.

# Terraced Garden - BEFORE

---

# Terraced Garden AFTER

Layer of mulch  
applied where  
plants are absent

Ready for planting  
at appropriate time

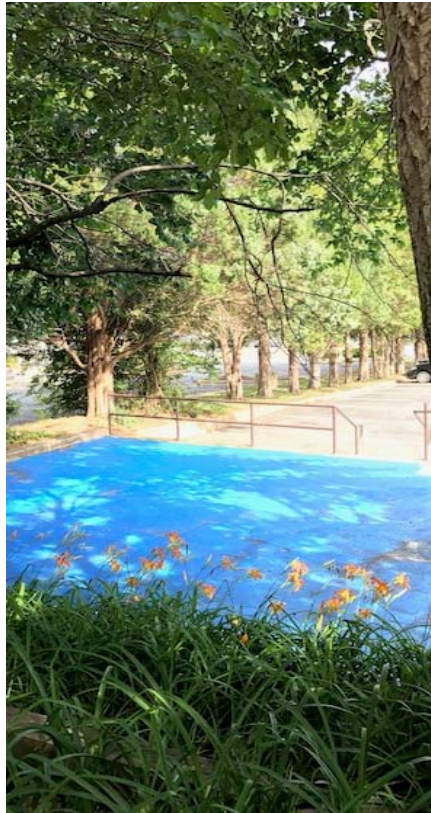

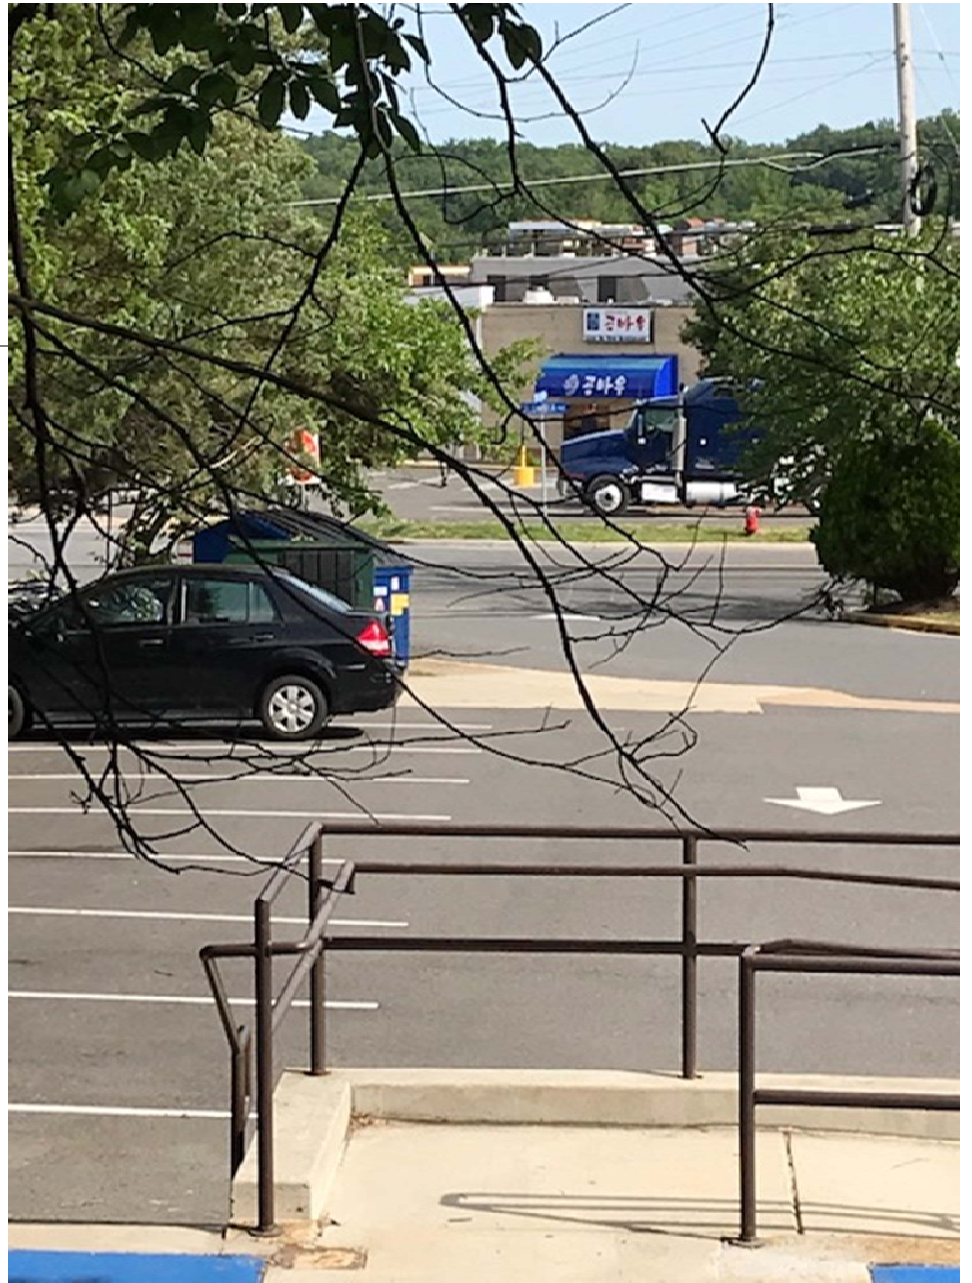

# Terraced Garden AFTER

# Patio as seen from upper area
